

Campus Services for Geology Guests

Wireless

Three wireless networks are available on The University of Montana Western campus. Geology guests will be using the network(s) named UMW-Gamers and UMW-Guest. All wireless devices will be allowed onto UMW-Gamers **EXCEPT FOR SMART PHONES***. To get your device connected to UMW-Gamers, go to:

<http://its.umwestern.edu/umw-gamers-authorization-form.html>

Complete **ALL FIELDS** of the authorization form. Be sure to use your official school email address! **Addresses that are NOT .EDU accounts** (all .COM addresses) **will be discarded!** Once completed, your device will be able to connect within two business days

***Smart phones are an exception. Because of the number of these devices on campus, smart phones will be required to use the network UMW-Guest for access.** Access to UMW-Guest is available without authorization or authentication.

Printing

We have large Xerox printers in each campus/Library lab that will be available by using the University of Montana Western login account provided to you. Since these labs are only open during business hours in the summer, we also have an Email-to-Print service with one printer in each dorm (JDC and Mathews). Instructions to use these printers are available @

<http://its.umwestern.edu/technology-guides.html>

*Email-to-Print only accepts PDF documents. Instructions to convert any document to a PDF are also available via the link above.

All other IT Services information is available @
